## PROFILE

React Native Developer with hands-on experience in building modern, responsive, and high-performance mobile applications. Skilled in creating clean and reusable UI components, managing state with React Hooks and Redux, and integrating REST APIs and Firebase services. Proficient in developing cross-platform apps with strong focus on performance, usability, and scalability. Adaptable to agile environments, collaborative teams, and currently seeking an opportunity to grow as a React Native in a dynamic organization.

## EDUCATION

**BS - Computer Science**, University of Karachi (DCS - UBIT)

01/2023 – present

**Higher Secondary School**, Govt National College

06/2020 – 08/2022

**Secondary School Certificate**, White House Grammar School

04/2018 – 07/2020

## TECHNICAL SKILLS

HTML | CSS(Bootstrap, Tailwind, Responsive Design) |  
JavaScript (ES6+) | React Native | React Navigation |  
Google Authentication | Firebase | React Hooks | Redux Toolkit |  
Git/Github | API Integration | React Native Push Notification |  
React Native Firebase chat

## PROJECTS

**Business Directory App** ↗

- Developed Modern UI.
- Integrated Google Authentication for login/Signup.
- Used useState hooks for state management.
- Modern libraries like flatList and react navigation is used.

**Deen App** ↗, 360XpertSolutions

- Contributed to UI fixes in 1Million+ users app.
- Debug and updated code with the latest updates of react native.

**E-invoice**, 360Xpert Solutions

- Designed and developed UI screens of this app.

**Stock Management System**

- Developed and maintained an intuitive stock management system using React.js with real-time inventory tracking.
- Integrated APIs for sales, purchases, and low-stock alert automation.
- Automated inventory updates for faster and accurate stock tracking

**Travel App**

- Designed a responsive travel web app with a clean, mobile-first user interface.
- Added destination search, trip planning, and booking features for seamless navigation.
- Focused on performance optimization and smooth user experience across devices

**Youtube Clone**

- Built a responsive video streaming app with an intuitive user interface.
- Added video playback, search, and user interaction features.

## SKILLS

Time Management | Problem-Solving |  
Agile Workflow |  
Efficient Communication |  
Testing and Debugging

## PROFESSIONAL EXPERIENCE

**Front-End Developer (Intern)**, Fortify

07/2025 – 11/2025

- Developed and optimized mobile application UI screens, ensuring a seamless and user-friendly experience.
- Identified and resolved application errors and bugs, improving overall stability and performance.
- Integrated Google Ads API via OAuth2.0 for automated ad account access, campaign management, and token lifecycle handling.
- Implemented secure access token exchange, webhook subscriptions, and token storage logic for seamless ad performance data retrieval.

**React Native Developer (Intern)**,

360XpertSolutions

06/2024 – 12/2024

- Reviewed and debugged the complete codebase for *Deen App*, resolving critical bugs to enhance performance and stability.
- Designed and developed an intuitive UI for *E-Invoice*, ensuring a seamless user experience aligned with modern design standards.
- Optimized app functionality and ensured cross-platform compatibility for mobile applications on iOS and Android.
